EXPERT'S VIEW

"M/Y Bamboo is a remarkable example of Benetti's Fast 125 series, blending Italian craftsmanship with modern performance. Delivered in 2019, her carbon fiber superstructure and D2P® (Displacement to Planing) hull ensure both fuel efficiency and comfort at sea. Designed by Stefano Righini and Redman Whiteley Dixon, she combines sharp exterior lines with bright, contemporary interiors. With a top speed of 24 knots and low engine hours, Bamboo stands out as an ideal option for an owner seeking a fast yet elegant semi-displacement yacht in pristine condition."
